

ART TEMPLATE

model TP-100300

Actual Size
100%

3 sq. in. of copy area included in product price.

LEGEND:

Cyan dotted lines: max. available copy area.

Green dotted lines: area include in the product price.
exceeding the green area will incur additional run charges.

Red solid lines: laser cut edges.

Black solid lines: machine milled edges.

Pocket Size

We offer the following standard pocket sizes:

Single depth: 2.0" and 2.25" diameter.

2" = black, 2.25" = magenta

This may affect max copy area.

NOTES:

normal production tolerances are +/- 1/32" (.031")
the red lines are laser cut, the black lines are machine milled.

For laser engraving:

B&W art must lie within the cyan dotted lines.

3" sq. in. of area are included in the price (green)

B&W vector art is preferred, but bitmap art can be provided if it is to size and 300 dpi or more.

For 4-color process:

3" sq. in. of area are also included in the price

(green dotted line). Our 4-color process is a 6-color, direct to substrate, digital UV print. For PMS colors we use the Pantone® color bridge. You may specify spot colors or PMS spot colors or convert all colors to the RGB color palette. Some small variances can occur in the process or PMS colors.
